SUMMARY

Software Engineer focused on Full-Stack Web Development, with hands-on experience building web applications using React, Next.js, Node.js, and Express.js. Experienced in developing practical projects, including an e-commerce platform and a social media application, with a focus on responsive user interfaces, reusable components, API integration, and backend development. Passionate about writing clean, maintainable code and building scalable web applications while continuously improving technical skills and problem-solving abilities.
My 7 years of experience in Document Control have strengthened my organizational skills, attention to detail, and ability to manage workflows efficiently, qualities that I apply to my software development work.

EDUCATION

Management Information Systems (MIS) 09/2019 – 06/2023
Thebes Academy Cairo,Egypt
Developed a web application as a graduation project using HTML, CSS, JavaScript, PHP, and MySQL, gaining practical experience in web development, database management, problem-solving, and application development.

PROFESSIONAL EXPERIENCE

MERN Stack Web Development Trainee 06/2026 – Present
AMIT Learning Cairo,Egypt

- Pursuing hands-on training in full-stack web development, focusing on modern web technologies and practical application development.
- Building web applications using HTML, CSS, JavaScript, React.js, Next.js, and React Bootstrap, with experience in responsive UI development and reusable components.
- Managing application state and forms using Redux Toolkit, Context API, Formik, and Yup.
- Learning backend development with Node.js and Express.js, alongside foundational database concepts using MongoDB.
- Integrating APIs using Axios and DummyJSON, and implementing navigation and routing with React Router.
- Using Git and GitHub for version control and project management.
- Applying technical skills through practical projects, including an e-commerce platform, an admin dashboard, and social media applications.
- Using Tailwind CSS to build and style modern web interfaces.

PROJECTS

E-commerce Web Application 10/2026 – 10/2026
React.js | Redux | React Router | Bootstrap | REST API Integration

- Developed a responsive e-commerce web application using React.js and React Router for client-side navigation.
- Implemented product listing and product details pages by integrating the DummyJSON API using Axios.
- Managed application state using Redux Toolkit, including cart and wishlist functionality.
- Built a dashboard interface for navigating and managing application features.
- Created responsive and reusable UI components using Bootstrap and React-Bootstrap.

Todo Management Application 07/2026 – 07/2026
React.js | Context API | React Hooks | State Management

- Developed an interactive task management application using React.js.

- Implemented centralized state management using Context API to share application state across components.
- Used React Hooks to manage component state and application behavior.
- Built reusable UI components with a focus on maintainability and component-based architecture.

COURSES

MERN Stack Development Diploma 06/2026 – Present
Amit Learning Online
Completed practical training in full-stack web development using MongoDB, Express.js, React.js, and Node.js, covering frontend development, backend fundamentals, and building web applications.

Python Programming Course 06/2025 – 08/2025
Udemy Online
Completed an online course covering Python programming fundamentals, including variables, data types, conditional statements, loops, functions, and basic problem-solving.

Java Programming Course 12/2023 – 03/2024
Udemy Online
Completed an online course covering Java programming fundamentals, including variables, data types, conditional statements, loops, methods, object-oriented programming (OOP), and basic problem-solving.

SKILLS

Frontend Development
HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, React Bootstrap, Tailwind CSS, Responsive Web Design, UI Development

React.js Development
React Hooks, Context API, Redux Toolkit, Component-Based Architecture, Reusable Components, Props and State, React Router, State Management

Backend Development
Node.js, Express.js, RESTful APIs, Server-Side Development, Client-Server Communication, Backend Fundamentals

API Integration & Data Handling
Axios, REST API Integration, HTTP Requests, JSON Data Handling, Asynchronous JavaScript, Promises, Async/Await

Forms & Validation
Formik, Yup, Form Handling, Input Validation, Formik-Based Form Management

Database Fundamentals
MongoDB, NoSQL Database Fundamentals, Data Storage Concepts

Tools & Version Control
Git, GitHub, Vite, npm, Browser Developer Tools

Software Development Practices
Problem Solving, Debugging, Clean Code Principles, Component Reusability, Responsive Design, Application Development

LANGUAGES

Arabic
Native

English
Upper-Intermediate (B2)
